

A BAD INHERITANCE

I used to hate you

But now I love you

A bad luck you were

You were never my intention

Life made me fall for you

You have become an inheritance

A bad one

Why couldn't you be good

Open doors for a brighter future

But instead with you all doors shutdown

You have a great shadow of darkness

No Light, No Future, No Hope

Just stuck and stuck and stuck with you

I used to hate you

But now I love you

You have become my obsession

I saw no life without you

It revolved around you

Take me back no time

I promise to leave you

Leaving you is life time task

But for my kids I promise

Letting history repeat itself would

Be a bad omen

I don't want my kids to be accusatory

Like I did

After I pessimist drugs

After I see my life disappear

My kids what you doing is neutral

Drugs can destroy your biggest dream

You need to be careful

You don't need to be egoistical

Think about your future

You don't have to be what I did

You need to do what I failed to do

Life is a precious gift

Don't waste it on drugs

Drugs will never give you happiness

Drugs are bad for you and kill you slowly

Drugs can make you crazy and lazy

German

**So why are you taking drugs
You are still young
You still have a lot to accomplish
You have to do what I failed to do
This is your time to make me proud
This is your time to change
You have to work hard
You don't need to be frustrated like me**

**Mine is over and yours
Mine was wasted away
But you still have time
Time to make it out
A circle you can break
An inheritance**

**I pray to the sun
A day doesn't go by
Without you being destroyed
But for them I hope
And I hope my voice was loud
Enough to be heard by you**

For you to have a brighter future

Aim high

Don't let this inheritance

Trap you into darkness

Search for light it not fair
